

Leveraging Agri-Tech Startups for Food Security and Resilience during COVID-19

Agri-Tech Webinar Series brought to you by

Webinar 1: Agri-Tech Startups for logistics and access to Agri markets

14th May 2020 from 11 am - 12:30 pm

Seeking solutions to Challenges in Agri-Value chains due to COVID-19

Challenges at the farm level and post-harvest level include labour, movement of farm machinery, logistics, warehousing, access to credit, limited inflow and outflow of information.

Attend our Webinar series to get to know how Agri-Tech Startups can help address these challenges.
